

Who Paints House Numbers on the Curbs?

From time to time, unauthorized companies will canvas the City and charge residents to paint their house address numbers on the curb. Many times, this results in the resident being charged anywhere from \$10 to \$40 for work that is poor quality or incorrect.

In an effort to prevent this, the City has issued Canning Hunger a permit authorizing them to paint address numbers on curbs throughout Diamond Bar. The cost for their services is strictly on a voluntary donation basis and residents may choose not to have this service performed. Please note that this non-profit organization has received permission to supply this service but is not contracted by the City.

Residents who have any information about curb painting companies performing work in the City without a permit, or would like to confirm a company's claim that they are permitted by the City, are encouraged to call the Public Works Department at 909.839.7040.

This is an example of the type of animal **NOT** allowed in Diamond Bar residential areas.

Not Every Animal Can Call Diamond Bar Home

Diamond Bar is not only a great place for families, it's a great place for pets too! Unfortunately, not every animal or pet can call Diamond Bar home. There are some animals that are not suitable for residential living. Residents housing livestock or poultry can be charged with a misdemeanor. The owner will also be

responsible for all costs and expenses incurred by the City while restraining, capturing or rescuing such animals. Any housing of a pig, hog, cow, bull, horse, mule, sheep, rooster or other livestock, including poultry is considered unlawful within city boundaries.

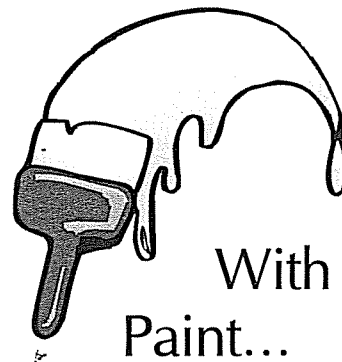

Please see section 6.20.040 of the Diamond Bar Municipal Code for further details. For more information, please contact the Community Development Department at 909.839.7030.

Diamond Bar Recycles Tons!

In August the City partnered with ARC International Corporation to host an E-Waste Collection event at City Hall. Over 37,000 pounds of electronics were collected, including nearly 18,000 pounds of monitors and televisions, and over 19,000 pounds of miscellaneous electronic items.

If you have E-Waste to dispose of, contact the Public Works Department at 909.839.7040 for information or for a free drop off location, call ARC International at 626.606.1010.

What You Should Do

With Leftover Paint...

- Dry unwanted latex/water based paint outdoors either in the can or brush surplus paint on a cardboard box and discard with the household trash.
- Add kitty litter to container to dry paint before disposal.
- Empty clean paint cans and lids can be recycled.

Remember, oil-based and any wet paint is considered Household Hazardous Waste, only dry latex or dry water based paint can be discarded with your household trash.

To dispose of oil-based and wet paint properly, take to a local Household Hazardous Waste collection event. Call 1-888-CleanLA or visit www.888cleanla.com for schedule.
